BACK

ZIPPER

3" Wide x 4" Tall

Bleed

Any elements that stop at the edge of the document must extend into the 'bleed area', 1/16" past the Trim on all sides. To account for our tolerance, any color or graphics that stop at the fold, must extend 1/16" onto the bottom gusset.

Trim

Where the bag will be cut.

Safe Area

We recommend important text and graphics remain inside the green lines to avoid being trimmed or folded.

Fold

Where the bag will fold.

Heat Seal

Color variation can occur in heat seal areas.

Cut Tolerance

To account for our cut tolerance, we recommend the design match from one side of the bag to the other.

BOTTOM

2" Gusset

BEFORE YOU START YOUR DESIGN...

- review the legend on the back to understand what each colored line represents
- leave the file in the layers from this template, adding your artwork to the artwork layer only. (if an eyemark is needed please copy it into the artwork layer)

WHEN SAVING THE FILE FOR PRINT, PLEASE ENSURE...

- that your artwork is NOT on the same layer as the template and then either TURN OFF or DELETE this template layer.
- to simply save the file to the size of this template.
- to **SAVE** as either a **.ai** (preferred format when saving from Illustrator) or a **Print Quality .pdf** (when saving from other software programs).
